[Dear Colleague,](#)

**Happy New Year.** We hope you believe in miracles, as I am sure 2024 will bring forth some amazing changes and opportunities. Our First Nation People are working on reinvigorating the political scene a bit, like they have achieved in NZ. One thing is for sure should this all come to fruition there will be a trend back to Natural Remedies over synthetic coal tar based ones. I think if you want to know, more join Queensland Health Practitioners on Telegram. An exciting year is unfolding.

Lets keep praying for things to get better in the worlds war zones and that 24, these horrible wars finish.

If you have not experienced the benefit of using or prescribing **BioActive GIT plus Zinc Forte**, Every pracky now knows about the gut brain connection. This Super Food, super nutritious remedy is without a doubt a world class formulation that is a phenomenal practice builder as the benefits are seen and felt very quickly and go on to help in the restoration process.

Over the break, I have blended the ingredients for a new batch of **BioActive Magneze powder**. I get excited thinking about how in such measurable amounts the efficacy is high and this is a Rolls Royce Magnesium Powder with 5 types of Mg and the best cofactors for energy and enzyme production. It's also great for those active, wanting to have a thermogenic nutritional to boost their training. Tastes terrific and can be combined with **LIPO C** in a water bottle to sip through the day. In the anti-aging stakes we need all these ingredients in meaningful amounts daily and very necessary when there are Polymorphisms and Pyroluria then Magneze should be considered.

I hope you get a benefit from listening to the Jan Podcast. I apologise for the podcast being a bit ummy. I have had a speech issues for several years from an injury and had to learn to overcome a number of odd issues to be able to be fully understood. I never write anything down I give a podcast from an idea and start talking. I expect in the months ahead my delivery will be much tighter as practice makes perfect (I hope). **Please see January Specials for full details on Magneze picture and ingredients.**

## Great News for BioResearch

Great news **BioResearch** is back! Standing the test of time the most amazing homoeopathic formulations of the modern times and for the modern illnesses. You will find the BioResearch stock on **Bioactiv.com.au** and the extensive list of Compounding ingredients we stock.

When you are a BioResearch fan you always have **Formua 12 +** in the stable as it underpins many of the protocols.

From an antiaging point of view and to kick the life force back into gear like what I did after being drugged to the hilt with hospital meds and arrived home in Iatrogenic shock, is take 10 drops of Formula 12+ under your tongue upon arising . One of the best companions to that, as a full on adaptogen is take Formula GT 6 drops 3-4 times daily (30 mins before meals) to help the health and healing of the bones, overcome adrenal exhaustion and restore peristalsis.

One of the effects on me from the bite was my blood pressure kept falling dangerously low and Adrenal exhaustion CFS common to Lymes. 3 weeks on BP is averaging 115 over 75 pulse 65 and I am 75, hows that? I take 10 ml of our Lipo C twice daily as the other booster.

With Bioresearch in your practice, success builds success in your treatment protocols.

## Compounding

I explained this in the December newsletter let us know if you need another copy. I did forget to mention this, 3 grams at near bedtime is best boosted by another 3 grams of **Bioactiv Magneze** a brilliant pleasant tasting tangy companion for a beautiful nights sleep and youthful recovery. Helps build lean muscle and strength, and a great weight management hack that can dovetail into the Simeon or Keto diet for better results.

A powerful brew below for you to make up for your patients and they will love you for it. Make up 100grams and give a 3 gram serve 30 mins before bed with the Magnese in a glass of water. Bring down cortisol, help strengthen the nerves after a stressful day waking up with a brighter mood are the sorts of things to expect from your patients. Those wanting more sex drive should see that improve also:

Compound these ingredients together:

Arginine Pyroglutamate	40 grams	1200mg
L Lysine	30 grams	900mg
Citruline Malate	10 grams	300mg
Ornithine Alfa Keto Glutarate	10 grams	300mg
L Theanine	6.7 grams	200mg
5 HTP	3.3 grams	100mg

Depression.

5 HTP which we now have available in the compounding range, has been found to treat mild depression. The greatest tool on the planet is grounding and light. Millions of dollars has been spent on research in the development of the Biopton Clinic polychromatic light device on the stand and some of the most beneficial outcomes is helping lift the mood substantially. This can save lives. Your chances of getting a near new machine for \$7k off the new price is winning a lottery and there are so many more applications for this powerful light therapy in even beauty, body work and acupuncture. See devices for sale below.

## Devices and Equipment

### Device Sale! Prices Reduced: up to 50% OFF

We have limited equipment that we are no longer distributors for and would like them to go to a good home. So we are now offering around **50% OFF** the normal price for what's left. These are real bargains. These equipment items may be depreciated through your business as a tool of trade. Prices are GST-free. Contact us for more information.

When I was a clinician over many decades I regularly gave light therapy with **Biopton**, the world's most researched polychromatic healing light device. The big unit we have here for sale is normally around \$18,000 inc. We are prepared now to sell you our unit for the incredible bargain price of **\$9250** inc so be quick. Payment can be made in 4x credit card instalments (including AMEX). This is the most revered device overseas for beauty therapy, aiding injuries, burns, acne and mood disorders. Several leading Australian hospitals have this in their burns unit. It is the most researched device overseas for the successful treatment of depression. When I bought this it had registrations for around 40 conditions. However, the rules around all light devices have changed and they can only be advertised to the general public as beauty therapy devices. This is an incredible shame as they can do much more to help the patient by a country mile.
