HEALTHCARE

Dear Colleague,

We hope you are looking forward to the pending short holidays. We can't believe its March already. In my Podcast here I have mentioned the Blue Klamath Lake Algae for rejuvenating the body and stem enhancement. A pracky we have known for decades is using heroic amounts and seeing extraordinary results. Go to biogenics.cerule.com. You have to join to be able to buy at wholesale. We don't carry this product.

In this Podcast, I run through the Bioresearch dynamics for pain (and I meant to say may assist in relieving the symptoms of pain - we make no claims here). But whilst it's important, there are so many things that imitate pain and they may not be resolved with chiropractic etc. In many cases, the pain will pass anyway through a cycle like PMS so Bioresearch helps the patient cope and can assist in lowering the heat and spasming. With pains associated with hormonal imbalances, look at the protocols for using Formula 12 + and FEM. Bioresearch Formula raises vitality so that herbs and nutrients can better rebuild the cells and health of the mitochondrial function and its miracle proton pumps. When we exercise we help the mitochondria move the heavier isotopes of Deuterium out of the pumps responsible for plugging up the pumps and slowing energy conversion. The Russians invented light water and now you can buy this at 10ppm of deuterium to slush out the deuterium from the USA. Regular exercise cures all partly because it stimulates these pumps to maintain this micro-cellular health. I do believe we have so many heavy nanoparticles including the common heavy metals they are also blocking energy to the mitochondria as well as enzyme function. One ingredient that reboots and regrows mitochondria and supports ATP production is PQQ in the combo of caps of 250mg CoQ10 with Dunlielia Salina containing 10mg of PQQ. People who use this formula don't want to be without this Comp Med. If you get sick and your mitochondria are in good shape you will bounce back much quicker after the illness has been my experience. PQQ is a private label supp from us. The fight against heavy metals from damaging mitochondria and membrane is regularly consuming colloidal minerals with Fulvic Acid. These highly negatively charged anti-oxidant micronutrients raise zeta potential and that prevents positively heavy metals from accumulating in and around the vital tissues of the organs and glands. FulviMin is BioActiv Life Force supplement in 200ml and 500ml. Bioresearch's two best formulas for Heavy metal Detox are LPH and DTX.

The big unit we have here for sale is normally around \$18,000 inc. We are prepared now to sell you our unit for the incredible bargain price of **\$9250** inc so be quick. This is the most revered device overseas for beauty therapy, aiding injuries, burns, acne and mood disorders.

To replace the world-renowned **Cyberscan** listed device, an authorised leading biofunctional device that costs around \$35,000 we have available for **\$9,900** (+ cost to transfer and update with the latest software to ensure you have everything covered including the latest variants). Any Cyberscan clinician would love to have an extra unit for evaluation and treatment. I can imagine that at this price we can make that possible.
