HEALTHCARE

Dear Colleague,

New Webinar Date

We have had some hosting problems in the past for Anns webinar and are looking at new hosting platforms. Thanks for bearing with us and we are now looking to host her wonderful webinar in May. We will have this information to you in the next newsletter.

We have updated details

In the past, we have advertised Ebbas mobile number for enquiries. We now have an office phone that is available also.

New Office Phone Number: **07 3416 4001**

Hours of operation: **Monday to Thursday** 9am to 5pm, **Fridays** 9am to 2pm

Orders: orders@biogenics.com.au

As the year marches on we continue to have new products especially for compounding and easy sizes to give directly to patients. We will send you a Flip catalogue of our Compendium in 2 weeks, it's close to completion. I have presented two podcasts this month Chaga Mushrooms for EMF protection + and the Prime Bioresearch Remedies to raise vitality/chi in the digestive system with the symbiotic relation of the Liver /Gall, boost digestion and absorption. I forgot to mention that GIT drops are famous for relieving Colic from all its manifestations in babies, children and even symptoms that arise from chronic conditions of malabsorption. Key BioResearch formulas **GIT/ Colic. VSL /Assimilation of fats, GT/Settles gut pain, boosts transit time, adoptgen.**

We are super proud to release the Certified Organic 8 Mushroom Blend containing these 8 medicinal mushrooms as per the chart below. This is a combination of 8 powerful water/ alcohol extracts as I describe these benefits in the blog. For herbalists, these will dissolve directly into your herbal extracts with a bit of a shake as you compound them for your patient. These mushrooms are picked from the wild and not grown in a lab. Mushrooms of this value will contain all 9 essential amino, B and D vitamins major minerals and trace minerals. The Immune boosting comes from the higher levels of medicinal polysaccharides, Beta Glucan and Betulin. We can also now offer 70% grade pure Beta Glucan. Be a little while before that will arrive at the wholesalers. Beta-glucans are super powerful antioxidants and anti-inflammatory agents that do sensational work to help heal the gut as well as boost its immunity. Organic 8 Mushroom Blend is our industries best value always. Lower prices are achieved across the spectrum of ingredients by going directly to the producers. We now by far offer the best budget prices for

compounding. This doesn't mean we have the lower quality and you will be unlikely to find better and fresher from us, just pay more to a competitor.

8 MUSHROOM BENEFITS

CORDYCEPS

It may boost athletic performance, energy and exercise recovery as it contains cordycepin, a compound that increases cellular energy. For the same reason, it may also help relieve chronic fatigue. Also, it aids cellular oxygenation to improve lung capacity and stamina, as well as being an antiviral.

REISHI

It's a balm that may help for high-stress situations, insomnia, low mood and anxiety, by modulating the nervous system lowering cortisol and regulating insulin. Reishi has the widest range of health benefits, with over 400 active compounds. It supports healthy immune and liver function and balances sex hormones.

LION'S MANE

It may stimulate brain cell growth due to active compounds hericenone and erinacine, and it reduces symptoms of memory loss in several lab studies. It also regenerates nerves in the gut-brain axis, regulating the nervous system and healing the gut. Good for treating leaky gut and IBS.

SHIITAKE

It contains cholesterol-lowering compounds eritadenine, sterols and natural statin lentinan, it may help lowering blood pressure and is anti-inflammatory. In addition, it is antibacterial and anti-fungal so it may help in clearing imbalances that are caused by bacteria or yeast fungus in the gut.

ROYAL SUN

It has the highest concentration of beta-glucans so it's very immune system supporting. If you are always picking up coughs and colds, or if you have a chronic infection, this is for you. It may calm your immune response so it's also good for soothing allergies, interal irritation and eczema.

MAITAKE

It's a metabolic blancer containing metalloproteins which may help healthy metabolic function, regulating blood sugars' blood lipids (including cholesterol) and blood pressure. It may help for weight management or insulin resistance. Animal studies show benefits for type 2 diabetes.

CHAGA

With very high levels of antioxidants, this mushroom is an immune modulator which may soothes inflammation, including in the gut to aid digestion and supports liver function. Good for skin as its antioxidants fight free radicals to reduce oxidative stress, so it may help slow down the cellular ageing process.

TURKEY TAIL

Turkey tail mushroom may enhance cognitive functioning, reduce fatigue, improve athletic performance and protect against age-related diseases. It may also help balance sugar levels, boost athletic performance, fight viral and bacterial infections and reduce fatigue.
